Apply online don't wait in line

Customers can now instantly apply for a bank account with Kina Bank's new fast, secure online activation process. The revolutionary new service means customers can open an account in minutes from the comfort of their own computer via Kina Bank's website: www.kina.com.pg.

After filling in the usual details online, individual customers can upload copies of their identification documents for Kina Bank staff to verify. With a simple click of the button, the application process is complete.

Customers only need to visit one of Kina Bank's newly refurbished state-of-the-art concept branches to confirm their identity and collect their new Kina Bank card. Customers will then have immediate access to Kina Bank's range of exceptional products and services.

Tailor made for Kina Bank, the new digital account opening service offers customers speed, ease and convenience. The best-in-class service comes with the highest levels of cyber security to protect customers' data and privacy.

"Online customer onboarding is a part of our digital strategy to become the leading digital bank in Papua New Guinea and I'm thrilled that it has been such a success," said Greg Pawson, Chief Executive Officer of Kina Bank.

"Papua New Guineans have shown they are incredibly digitally savvy with more and more customers choosing to transact online and via our mobile app. Our new online account activation process is the next step in bringing world class products and services to our customers, and part of our vision to be the most dynamic, progressive and accessible financial services company in PNG," said Mr Pawson.
