

# Xero Bank Feeds User Guide.

## Corporate Online Banking

- 1 Go to Kina Bank internet banking link <https://digital.kinabank.com.pg/corporate/>
- 2 Enter userID and password and click **Login** button.

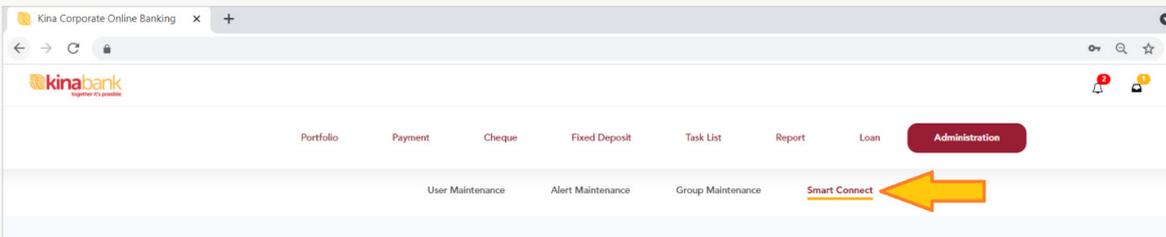

- 3 Input One Time Password (OTP).

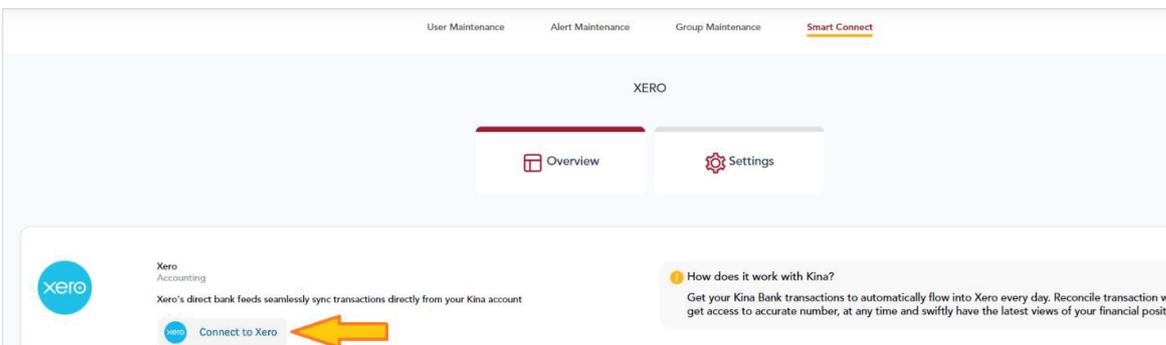

4 Click on Administration menu.

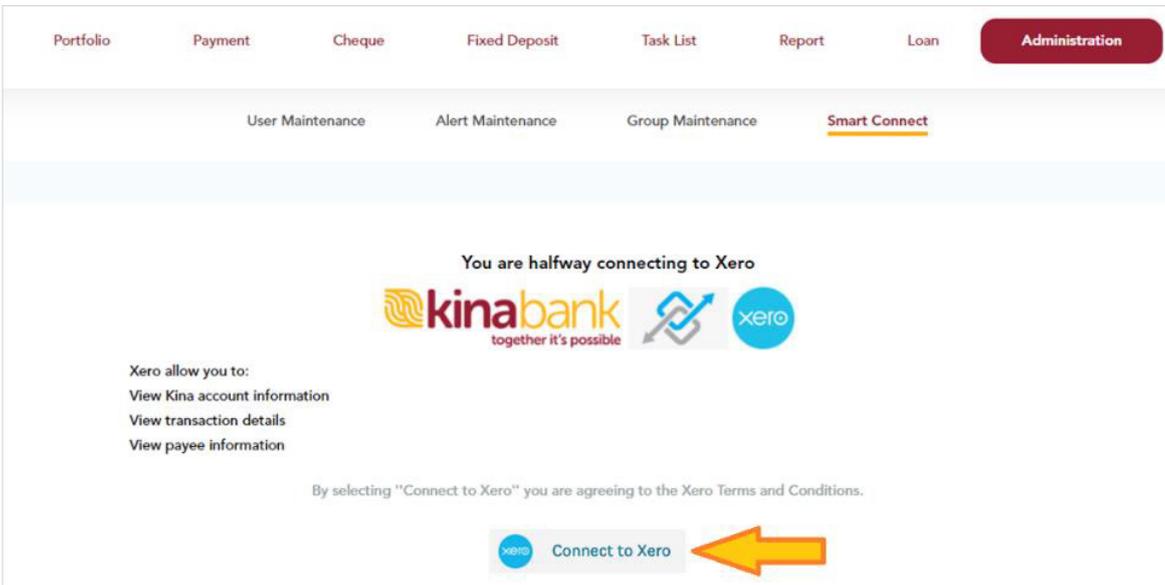

5 Click on Smart Connect tab.

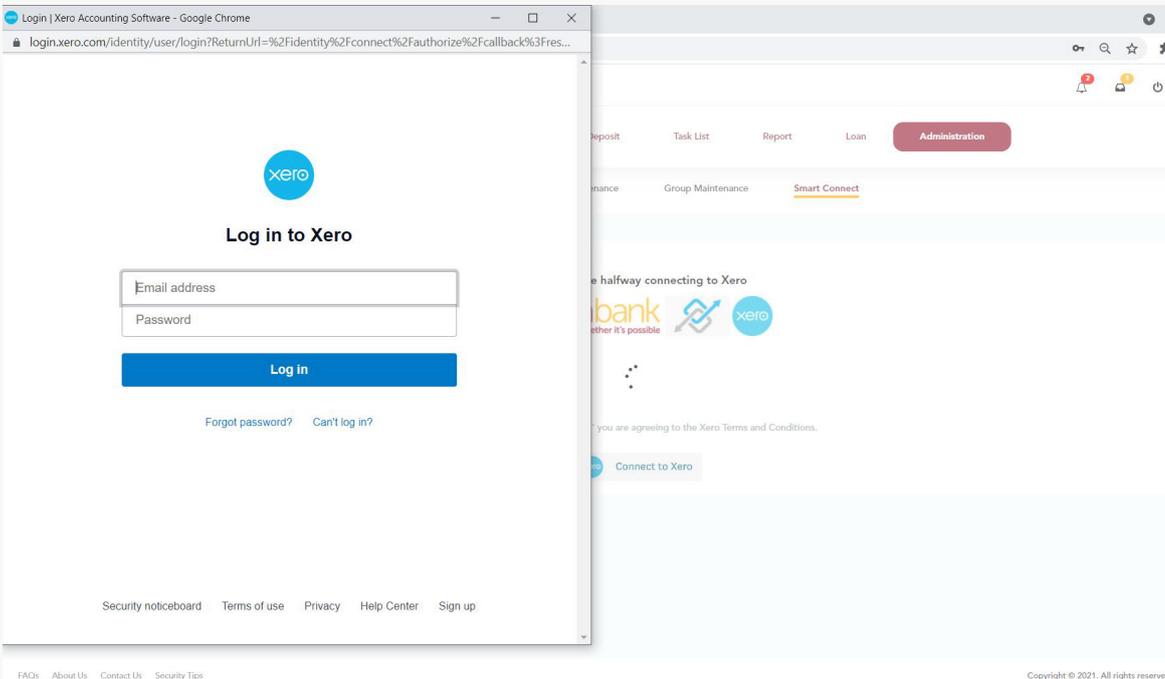

6 Click on Connect to Xero button.

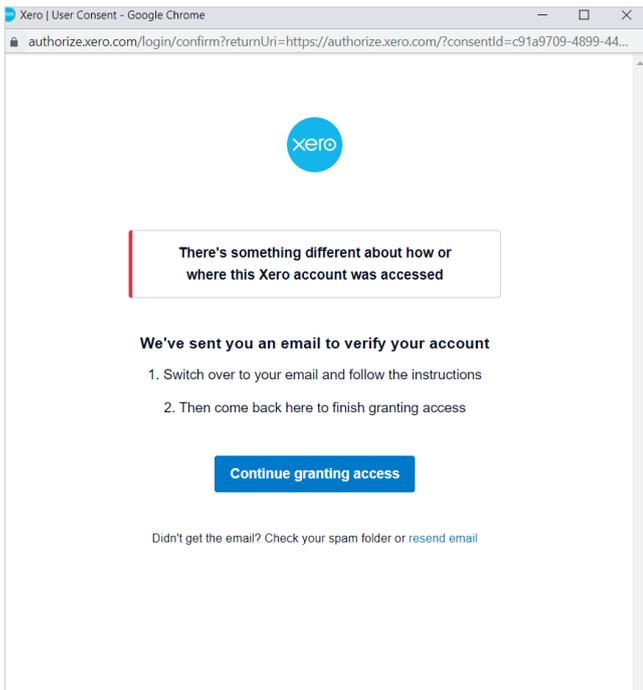

- 7 In the next screen; click on the **Connect to Xero** button and get your Xero log in Credentials ready.

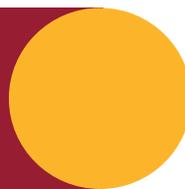

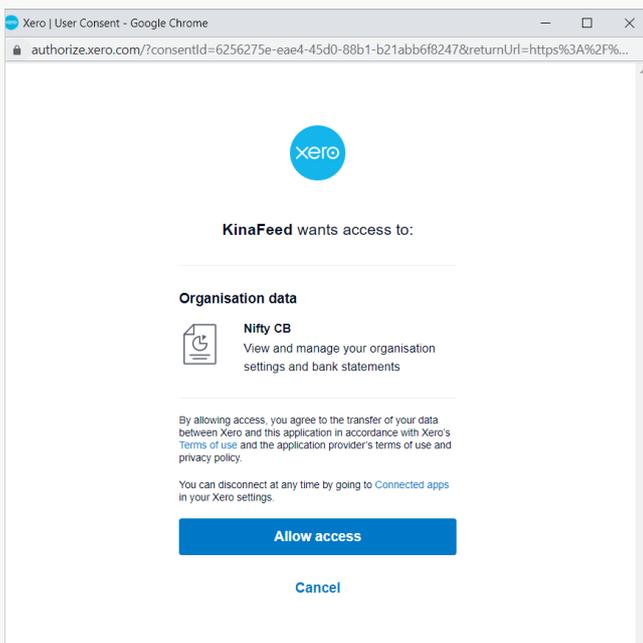

- 8 At the Log in to Xero pop-up; log in using your Xero Credentials and click the **Login** button then go through the Multi Factor Authentication(MFA) process for Xero.

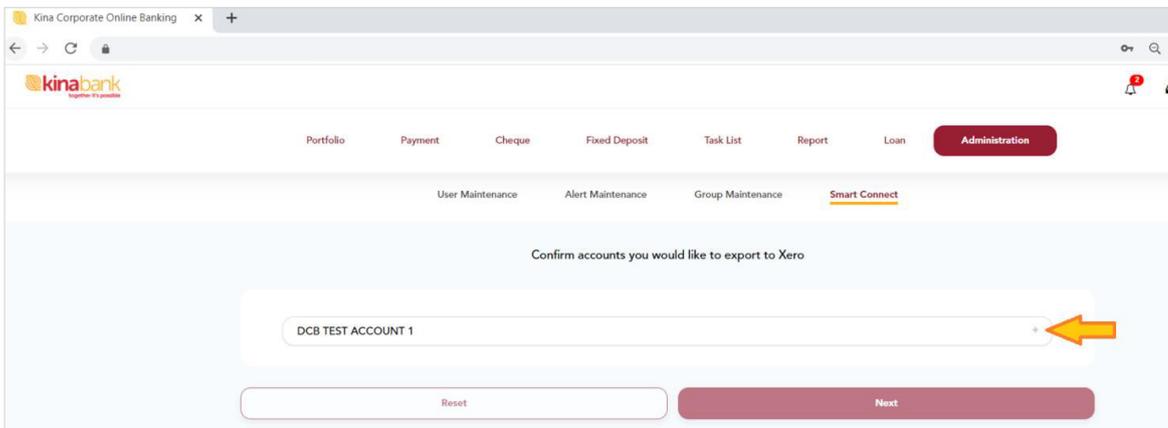

9 At the Xero | User Consent screen, click on **Continue granting access** button.

- 10 Select **Company** file to connect to; for those that have multiple companies connected.
- 11 Click on **Allow access** button. Upon successful connection - you will be returned to the Corporate Online Banking screen to select which accounts to sync.

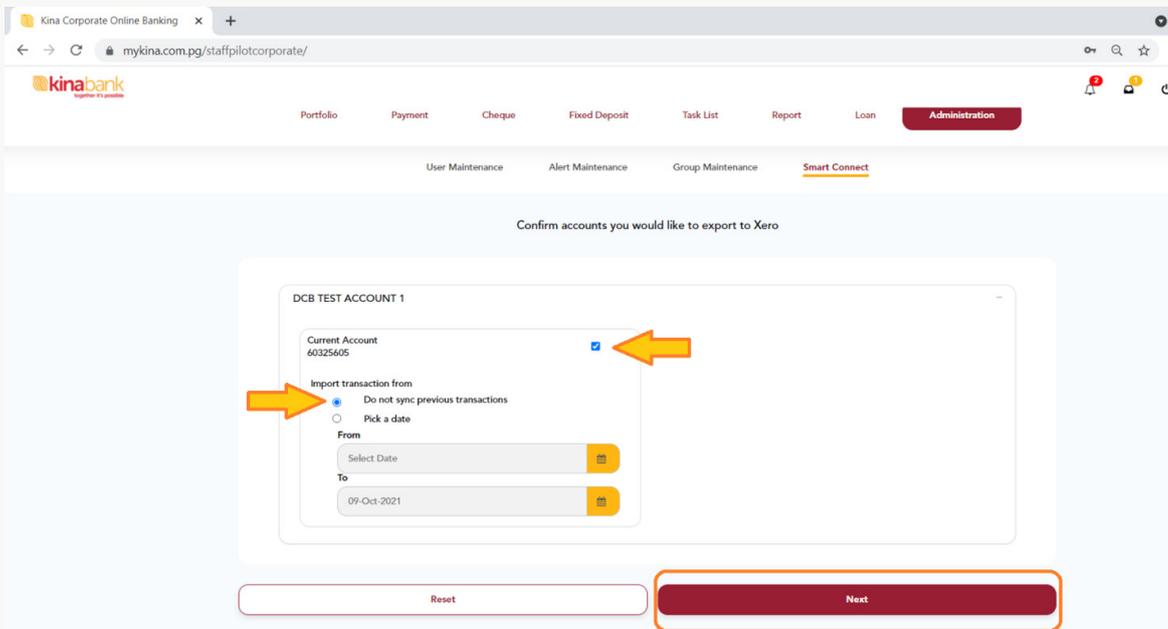

- 12** On the Corporate Online Banking screen; Select Company and Click on the + symbol to expand for list of accounts.

- 13** Select the account - tick the checkbox to select.

- 14** Select the Do not sync previous transactions option at the Import transactions from prompt.

- 15** Click on Next button.

- 16 Start account mapping screen by linking the Kina Bank Account to the Xero Organisation and account. Take note of the Kina Bank Account; under the **Map this Kina Account** heading.

Set up your account mapping creation by assign organization and create Xero account
